FOTON

TOTAL CARE

SOLUTIONS AND PEOPLE YOU CAN TRUST

Backed by Tan Chong Group service network

Vast Service Network Coverage

Nationwide service network built for your convenience.

Locate our service centre: www.angkatanmotor.com.my

TC Trust

TC Trust is a service agreement that is tailored specifically to suit your business. It is designed to optimize your Foton trucks' total cost of ownership and provide you a hassle-free fleet maintenance management.

Foton Genuine Parts

Ensure safe running of your vehicle and prolong its service life.

Res-Q

24 HOUR Breakdown Service RES-Q

Keep your fleet at an optimal uptime with our Res-Q service assistance round the clock.

Driver Training Development

Provide driver training to enhance driver skills and confidence to become more fuel efficient, with higher uptime and lower operational costs.

One-Stop Repair & Insurance Service

Supported by in-house Major Repair Centre equipped with expertise.

FOTON

SUPER
safe tility ower fficient eliable

AUMARK S

The Aumark S is a light vehicle truck by Foton. The vehicle was designed to meet the requirements of efficient, urban logistics operations. Bringing together the latest technological innovations as well as great style and interior design, the Aumark S stands at the very top of the class of high-end light trucks.

Foton carries excellent quality and efficiency of "**SUPER - Safe, Utility, Powerful, Efficient,** and **Reliable**" for efficient road logistic and optimizing operating cost that fits the specific needs of various logistic and transport operation.

Operating since 2003, Foton has sold more than 5 million units of Aumark models. The latest Aumark S generation is now equipped with an unique powertrain consist of the world-class Cummins ISF 2.8 and ISF 3.8 diesels engines, alongside with an established ZF high performance transmission to optimize truck performances.

ANGKA-TAN MOTOR

Angka-Tan Motor Sdn Bhd (ATM) is a subsidiary of Warisan TC Holdings Berhad and a member of Tan Chong Group with a decade of experience in sales and distribution, assembly and parts distribution in automotive industry. Backed by Tan Chong Group comprehensive service network and expertise, ATM takes the lead as the sole distributor of Foton Aumark S in Malaysia.

NOTE: All images in the brochure are for illustration purposes only. Specification of each models are detailed on the specification page.

SUPER Safe

Safety is a key focus during the development of the Foton Aumark S. It offers both active and passive safety systems to improves driver driving safety.

Efficient Braking Power
Air brake* comes with front disc brake, together with ABS (Anti-lock Braking System) to provide high braking performance even on extreme road conditions.
**Full air brake applicable for 6-wheeler only.*

Always Visible
Distinctively designed, the LED Daytime Running Light (DRL) provide better visibility to the truck operator and other road users. Electrically adjustable headlamp from inside of the cabin to improved driving safety and comfort at night on urban delivery.

Rigid Body Structure
Protecting vehicle occupants with a truck cab structure that meets international standard and meet "ECE R29".

Stabilizer Bar (Front & Rear)
Reduce the cargo/body rolling and stability on curves, sharp corners or over large bumps.

SUPER Utility

Designed to maximize all distributional support, the Foton Aumark S features an ergonomic interior to maximize occupant comfort and adapted to various business application.

Ergonomic Panel Interior
The control panel provides a clean layout for a better dash interface, easy reach of the driver to maximize driving comfort.

Improving Comfort
Improves design in noise and vibration insulation for quieter and comfortable driving to reduce driving fatigue.

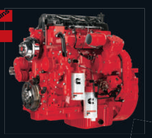

A Versatile Chassis
High tensile steel versatile chassis with standard holes mounting design to adapt any body structure and applications.

SUPER Power

The Foton Aumark S powertrain offers the best fuel consumption, plenty of torque, super in power equipped with 6-speed transmission has optimized for various short and long haul delivery operation to maximize your productivity and operation efficiency.

ISF2.8 Engine

ISF3.8 Engine

The Foton Aumark S is offered with 2 Cummins engine selection to meet various business operational flexibility and more economical in the long term.

American Axle Manufacturing Rear Axle
The axles has been designed to handle heavier load under various driving conditions, even on poor road conditions.

High Efficiency High Performance Transmission
An established brands in the automotive market, the highly performance technologies for the 6-speed* manual transmission matched with the high efficient Cummins engine for an optimize truck performance.
**6-speed for 6-Wheeler/ 5-speed for 4-Wheeler*

SUPER Efficient

Improving business productivity requires a truck that can deliver efficiency to meet logistic efficiency.

Weight Reduction
In addition to light weight body design, fuel tank, air reservoir, power steering pump are made of aluminum for weight reduction.

Lower Fuel Consumption
Lower fuel consumption can be achieved through efficient and clean Cummins engine coupled with high performance ZF transmission.

Lower Maintenance Cost
Design features focus on providing low maintenance costs through long service interval and lower fuel consumption.

Industry Leading Component Suppliers
Core components are co-developed and supplied by trusted global suppliers to deliver reliable performance.

SUPER Reliable

The Foton Aumark S undergoes rigorous test verification supported worldwide by industry-leading components suppliers to ensure reliability for various operations and truck applications.

Rigorous Test Verification
1.6 million kilometers extreme environmental durability test around the globe to ensure utmost quality and reliability for various business applications.
